

COLLEEN R. WELLS, M.S.
LLBO Heritage Sites Field Director
218-335-8095
crkwells@earthlink.net

EDUCATION

Master of Science, Archaeology: University of the Witwatersrand, Johannesburg, South Africa. Master's Thesis: *Behavioural Ecology During the Middle Stone Age at Sibudu Cave, KwaZulu-Natal, South Africa: A Faunal Perspective*. November 2003. Graduation with Distinction.

Bachelor of Arts, Anthropology: Idaho State University, Pocatello, Idaho. December, 1998. Graduation with honors.

Associate of Arts, Anthropology: College of Southern Idaho, Twin Falls, Idaho. May, 1995. Graduation with honors.

High School Diploma: Wendell High School, Wendell, Idaho. May, 1992. Class Salutatorian.

TECHNICAL SPECIALTIES

Ms. Wells has over 12 years of professional experience:

- Cultural Resources Management
- Phase I Intensive Survey and Site Inventory
- Phase II Test Excavations
- Phase III Data Recovery Excavations
- Historical Site Inventories
- Historical Site Evaluations
- Laboratory Analysis
- Archaeological Curation
- Faunal Analysis
- Human Osteological Analysis
- Artifact Illustration
- Computer-generated Graphic Illustration
- Geographic Information Systems (ESRI ArcGIS)
- Technical Writing/Editing

PROFESSIONAL EXPERIENCE

Ms. Wells has worked in all phases of archaeological research, and has obtained field and/or laboratory experience in Idaho, Utah, Montana, Nevada, New Mexico, Wyoming, Oregon, South Dakota, Iowa, Minnesota, Indiana, and Kentucky. In addition to her experience in the US, she has also conducted archaeological field and laboratory research in South Africa.

Leech Lake Band of Ojibwe, Heritage Sites Field Director (Full-time, 40 hrs/wk)

Ms. Wells serves as the Field Director of the Heritage Sites program for the Leech Lake Band of Ojibwe in Cass Lake, Minnesota (April 2004 to present). Her responsibilities include staff training, coordinating and directing fieldwork, completing site forms, writing technical reports, developing guidelines, overseeing laboratory work, coordinating the implementation of the Leech Lake Archaeological Records System (LLARS), conducting historical records searches, and working directly with the Program Director to develop management and mitigation strategies, complete project bids and research designs, perform National Register evaluations, and implement policies ensure the Heritage Sites Program is operating effectively and efficiently. Supervisor: Thor Olmanson (218-335-8095, email hsites@llojibwe.com).

North Wind, Inc., Archaeological Crew Chief (Full-time, 40+ hrs/wk)

Ms. Wells served as a Crew Chief for the Cultural Resource Division at North Wind, Inc.'s (North Wind's) Idaho Falls Office (May 2003 to April 2004). She was responsible for leading crews in archaeological fieldwork, recording archaeological sites, evaluating data collected in the field, and preparing technical reports detailing the proposed project, its potential impacts, and recommendations regarding archaeological properties identified within the Area of Potential Effect (APE). She also conducted GIS projects in ESRI ArcGIS for the Cultural Resources Division. Supervisor: Bill Harding (208-528-8718, ext. 143).

Landmark Archaeological and Environmental Services, Inc. (Landmark), Archaeologist/Staff Illustrator/Kentucky Office Lab Manager (Full-time, 40 hrs/wk)

While at Landmark, Ms. Wells performed numerous Phase I and Phase II archaeological projects in Indiana (May 2000 – May 2001) and Kentucky (May 2001 – March 2003). She was responsible for various field and lab duties including cleaning, classifying, cataloging, and illustrating artifacts, processing and sorting flotation samples, producing digital illustrations of unit/site maps and profiles, supervising lab and field technicians, conducting background research, performing faunal and human osteological analysis, and writing reports. She worked as Assistant to the Principal Investigator for her duration in the Kentucky office, during which time she assisted with preparing bids, planning field strategies, conducting artifact and data analysis, and compiling extensive reports. She was responsible for developing guidelines for artifact analysis, data entry, and preparation of collections for curation. Supervisor: Thor Olmanson (218-335-8095, email hsites@llojibwe.com).

Burns & MacDonnell, Cultural Resource Specialist (Temporary, 40+ hrs/week)

Ms. Wells performed archaeological survey, subsurface testing, and test excavation (March 2000 – May 2000) for the DM&E Railroad project in South Dakota and for IDOT 61 Highway Bypass Project near Fort Madison, Iowa. She served as a Crew Chief on the Iowa project, supervising crews in site inventory and subsurface testing. She was responsible for ensuring that accurate field methods were employed and that complete and accurate documentation was accomplished for each assessed location. This documentation included detailed and precise sketch maps, soil profiles, shovel test locations and results, topographic and environmental setting, current land use, ground cover, site dimensions, slope, aspect, impacts to the site, and access. Supervisor: Holly (Mead) Jones.

Lone Mountain Archaeological Services, Field Technician (Temporary, 40+ hrs/wk)

Ms. Wells performed archaeological survey for a seismic project near Baggs, Wyoming (December 1999 – January 2000). During this project, she recorded sites, completed site sketch maps, rerouted project lines to avoid archaeological sites, photographed sites, completed artifact illustrations, and compiled site narratives. Supervisor: Thor Olmanson (218-335-8095, email hsites@llojibwe.com).

Sawtooth National Forest, Archaeological Technician (GS-04) (Seasonal, 40 hrs/wk)

Ms. Wells performed archaeological surveys on all districts of the forest, including the Sawtooth National Recreation Area. She coordinated with various Forest Service officials to schedule surveys; navigated varied terrain on foot and in 4 X 4 vehicles using topographic maps, aerial photographs, and a compass; recorded various types of archaeological sites, including prehistoric lithic scatters and isolates, historic mining camps and isolated can dumps and tailings piles associated with such activities, historic homestead sites, and historic guard stations; assisted with shovel testing and test excavations; wrote technical reports, produced artifact illustrations; trained others to perform surveys and write reports; and gave interpretive talks and demonstrations for schools and organizations (May 1995 – November 1999 Seasonally). Supervisor: Roshanna Stone (rstone@fs.fed.us).

Bridger-Teton National Forest, Archaeological Technician (GS-05) (Seasonal, 40 hrs/wk)

Ms. Wells performed archaeological excavation at the Stewart Flat Site on Fremont Lake and completed associated field documentation; assisted in teaching an archaeological field school; and instructed volunteers in excavation procedures and artifact identification (June 1999 – August 1999). Supervisor: Jaime Shoen (307-739-5523).

Center for Ecological and Environmental Anthropology, Idaho State University, Field Technician (Temporary, 40 hrs/wk)

Ms. Wells performed archaeological survey for a fiber optics line from Bruneau, Idaho to Owyhee, Nevada (May 1999). Supervisor: Holly (Mead) Jones.

Northwest Archaeological Associates, Field Technician (Temporary, 40 hrs/wk)

Ms. Wells performed archaeological survey for a power line project in Western Idaho, near Payette, Idaho and Ontario, Oregon (April 1999 – May 1999). She recorded archaeological sites, and completed sketch maps and illustrations of artifacts and features. Supervisor: Laurie Mauser (208-331-8464).

Bionomics Environmental, Field Technician (Temporary, 40+ hrs/wk)

Ms. Wells performed archaeological survey for a highway realignment project in Northern Idaho, near Coeur d'Alene (March 1999 – April 1999). Supervisor: Laurie Mauser (208-331-8464),

Idaho Museum of Natural History, Curation Assistant (Part-time, 15-20 hrs/wk)

Ms. Wells processed archaeological collections for storage; cleaned, sorted, and labeled artifacts; entered associated data into a database (REGIS); and processed and filed all associated documentation (December 1997 – December 1998). Supervisor: D. Lynn Murdoch (208-236-4954, email murddena@isu.edu).

DATA RECOVERY PROJECTS

Data Recovery Excavation of the Walker Hill Site (21CA668), Cass County, Minnesota (September 2006). Ms. Wells assisted with excavations at this potentially early lithic scatter site. Excavations are still in progress.

Excavations by the University of the Witwatersrand, Johannesburg, South Africa (September 2001; January-February 2002). Ms. Wells participated in archaeological excavations of Hackthorne 1, an Acheulean (\approx 500,000 years B.P.) site in northern South Africa (September 2001) and Sibudu Cave, a Middle Stone Age (\approx 50,000 years B.P.) rockshelter site in eastern South Africa.

Data Recovery Excavation of an Early 19th Century Miami Indian Village near Huntington, Indiana (August 2000). Ms. Wells participated in archaeological excavations of a historic Indian Village burned in the early 1800s by US military forces.

Data Recovery Excavation of the Stewart Flat Site (48SU1041), Pinedale, Wyoming, for the Bridger-Teton National Forest (June-August 1999). Ms. Wells participated in the excavation of an Archaic to Late Prehistoric site located near Fremont Lake in Pinedale, Wyoming.

TEST EXCAVATIONS

Test Excavation, Phase II Evaluation of Archaeological Site 21BL267: An Early Archaic Habitation Site in Beltrami County, Minnesota (September 2006). Ms. Wells served as Field Director for the test excavation of this site to evaluate eligibility recommendations for the National Register of Historic Places (NRHP) and to develop mitigation plans for the proposed improvements to Beltrami County Highway 39.

Test Excavation, Phase II Evaluation of Archaeological Site 21BL249: A Woodland Habitation Site in Beltrami County, Minnesota (October, 2006). Ms. Wells served as Field Director for the test excavation of this site to evaluate eligibility recommendations for the NRHP and to develop mitigation plans for the proposed improvements to Beltrami County Highway 39.

Test Excavation, Phase II Evaluation of Archaeological Site 21BL198: An Early Woodland Habitation Site in Beltrami County, Minnesota (October, 2005). Ms. Wells served as Principal Investigator for the test excavation of this site to evaluate eligibility recommendations for the National Register of Historic Places (NRHP) and to develop mitigation plans for the proposed construction of an access road and the closing of another road within the site area.

Test Excavation, Phase II Evaluation of the Sherman Archaeological Site (21BL0246): A Transitional Palaeoindian to Early Archaic Habitation Site in Beltrami County, Minnesota (October, 2005). Ms. Wells organized and directed the test excavation of this site to evaluate eligibility recommendations for the NRHP and to develop mitigation plans for the proposed closing of an existing road within the site area.

Test Excavation, Phase II Evaluation of Archaeological Site 21BL18: An Archaic to Woodland Habitation and Mound Site in Beltrami County, Minnesota (July-August, 2005). Ms. Wells organized and directed the test excavation of this site to evaluate eligibility recommendations for the NRHP and to develop data recovery/mitigation plans for the proposed installation of a new septic system.

Test Excavation, Phase II Evaluation of Archaeological Site 21IC333: A Woodland Habitation Site on the Bowstring River, Itasca County, Minnesota (July-September, 2005). Ms. Wells organized and directed the test excavation of this site to evaluate eligibility recommendations for the NRHP and to develop potential mitigation plans for the proposed installation of a new well and septic system.

Test Excavations, Phase II Evaluation of Archaeological Sites 15Hk277, 15Hk278, 15Hk279, and 15Hk280: An Archaic Hilltop Site and Surrounding Rockshelters in Hopkins County, Kentucky (May-June 2001). Ms. Wells served as Crew Chief during the test excavation of four Archaic-Mississippian age sites. The testing was conducted to evaluate eligibility recommendations for the NRHP. Site 15Hk280 was a burial that had previously been looted, therefore necessitating the recovery and analysis of displaced and severely fragmented human remains prior to repatriation. Ms. Wells conducted all skeletal identification and analysis.

Test Excavations, Six Points Road Interchange Project, Indianapolis International Airport, Madison County, Indiana (August-November 2000). Ms. Wells participated in test excavations at Historic Period sites 12Ma711, 12Ma714, and 12Ma733. The testing was conducted to evaluate eligibility recommendations for the NRHP and to develop data recovery plans.

Test Excavation, Investigations to Locate a Potential Unmarked Family Cemetery in Columbus Township, Bartholomew County, Indiana (July 2000). Ms. Wells participated in test excavations in an attempt to locate historic burials. The testing was conducted to evaluate eligibility recommendation for the NRHP and to develop data recovery plans.

Test Excavation, Evaluation of a Prehistoric Site on the Ohio River in Perry County, Indiana (June 2000). Ms. Wells participated in test excavations of a prehistoric site near Cannelton, Indiana. The testing was conducted to evaluate eligibility recommendations for the NRHP and to develop data recovery plans.

Test Excavation, Evaluation of a Prehistoric Site in Cassia County, Idaho, for the Sawtooth National Forest (July 1997). Ms. Wells assisted in documentation at a prehistoric cave site being tested in the Cassia Division of the Sawtooth National Forest. She completed sketches of rock art present in the cave and assisted with processing deposits removed from test units within the cave.

SITE INVENTORY

Ms. Wells has conducted numerous cultural resource inventories in Idaho, Utah, Wyoming, Oregon, Nevada, Montana, South Dakota, Iowa, Minnesota, Indiana, Kentucky, and South Africa. These inventories ranged in size from less than 1 acre to thousands of acres, and ranged from shovel testing, to linear pedestrian surveys, to block surveys, to sample surveys.

Phase I Archaeological Reconnaissance Investigation of 12 Sanitation Facility Construction Applicant Lots (July 2006-June 2007). Ms. Wells directed field operations during the survey of 12 lots proposed for well and septic upgrade/installation projects.

Phase I Archaeological Reconnaissance Investigation of Itasca County Forestry Land (November 2006). Ms. Wells served as Field Director during the survey of approximately 7 acres proposed for commercial timber harvest.

Phase I Archaeological Reconnaissance Investigation of a Proposed Development on Woman Lake, Cass County, Minnesota (November 2006). Ms. Wells served as Field Director during the survey of approximately 16 acres within a proposed housing development area.

Phase I Archaeological Reconnaissance Investigation of a Potlatch Timber Stand in Cass County, Minnesota (October 2006). Ms. Wells directed field operations during the survey of approximately 40 acres proposed for timber harvest.

Phase I Archaeological Investigation of Various Leech Lake Band of Ojibwe Residential Development Projects (April-December 2006). Ms. Wells served as Field

Director/co-Principal Investigator for the survey of 23 properties (58 acres) within Reservation lands.

Phase I Archaeological Investigation of the Proposed Bena Community Center, Cass County, Minnesota (April and August 2006). Ms. Wells directed field operations and monitored lot-clearing activities for the construction of a new community center.

Phase I Archaeological Investigation of Chippewa National Forest Lands (May-November, 2006). Ms. Wells directed field operations during the survey of approximately 6000 acres within the Chippewa National Forest.

Phase I Archaeological Investigation of Forestry Lands within the Leech Lake Reservation (June-October 2006). Ms. Wells directed field operations during the survey of approximately 570 acres within Reservation lands.

Phase I Heritage Resource Reconnaissance Survey of the Scenic Highway in Beltrami and Cass Counties, Minnesota (September-November 2005). Ms. Wells directed field operations during the survey of this 26-mile proposed highway improvement project.

Phase I Archaeological Investigation of Various Leech Lake Band of Ojibwe Development Projects (April-November, 2005). Ms. Wells served as Field Director during archaeological reconnaissance investigations within Reservation lands.

Phase I Archaeological Investigations of 20 Sanitation Facility Construction Program Applicants in Beltrami, Cass, and Itasca Counties, MN (April-October, 2005). Ms. Wells served as Field Director for walkover survey and shovel testing of 19 1-3 acre lots for the installation of new well and septic systems by Indian Health Services.

Phase I Archaeological Investigation of Various Timber Stands within the Chippewa National Forest, Beltrami, Cass, and Itasca Counties, MN (In progress, April-November, 2005). Ms. Wells served as Field Director during the archaeological reconnaissance investigation of approximately 4700 acres, including surface survey and shovel testing.

Phase I Archaeological Investigation of Various Timber Stands within the Chippewa National Forest, Beltrami, Cass, and Itasca Counties, MN (April-December 2004). Ms. Wells served as Field Director during the archaeological reconnaissance investigation of approximately 10,000 acres, including surface survey and shovel testing.

Phase I Archaeological Investigations of 34 Sanitation Facility Construction Program Applicants in Beltrami, Cass, and Itasca Counties, MN (April-December

2004). Ms. Wells served as Field Director for walkover survey and shovel testing of these 1-3 acre lots.

Phase I Archaeological Investigation of the Wilton DNR Materials Extraction Area, Beltrami County, MN (November, 2004). Ms. Wells served as Field Director during the archaeological reconnaissance investigation of this 56-acre project.

Phase I Archaeological Investigation of the Walker Community Center, Cass County, MN (November 2004). Ms. Wells served as Field Director during the archaeological reconnaissance investigation of the 10-acre project.

Phase I Archaeological Investigation of a Water Retention Pond Project in Detroit Lakes, Becker County, MN (November 2004-June 2005). Ms. Wells served as Field Director and GIS administrator during the archaeological investigation of this 36-acre project.

Phase I Archaeological Investigation for the realignment and improvement of CSAH-19, Beltrami County, MN (May-November, 2004). Ms. Wells served as Field Director during the intensive archaeological reconnaissance investigation of approximately 4 linear miles of highway realignment.

Phase I Archaeological Investigation of the Bayview Estates Housing Development, Cass County, MN (October, 2004). Ms. Wells served as Field Director during the archaeological reconnaissance investigation of this 56-acre project.

Phase I Archaeological Investigation of Various Leech Lake Band of Ojibwe Development Projects (June-November 2004). Ms. Wells served as Field Director during the archaeological reconnaissance investigation of approximately 400 acres within Reservation lands.

New Range Road 9 Gate and Fence, White Sands Missile Range, New Mexico (February 2004). Ms. Wells assisted with this 3.8-acre intensive survey.

Design/Build New Police Station, White Sands Missile Range, New Mexico (February 2004). Ms. Wells assisted with this 7.5-acre intensive survey.

U.S. 93, Arco West (November 2003). Ms. Wells assisted with this 350-acre intensive survey southwest of Arco, Idaho.

(Class I) A Literature Review Concerning the Upper Missouri Breaks National Monument, Blaine, Chouteau, Fergus and Phillips Counties, Montana (October – November 2003). Ms. Wells generated a GIS coverage containing all cultural resources inventories conducted and all cultural properties recorded within the National Monument boundaries (506,427 acres).

A Class I Overview of Cultural Resources in the Clancy-Marysville, North Hills and Scratchgravel Fire Management Zones of the Butte-Dillon Wildlife/Urban Interface

Project, Jefferson and Lewis and Clark Counties, Montana (November 2003). Ms. Wells generated a GIS coverage containing all cultural resources recorded within the proposed fire management zones (42,260 acres).

Schwendiman Wind Farm, Bonneville County, Idaho (August 2003). Ms. Wells served as Crew Chief for this Intensive Survey of 40 acres near Iona, Idaho.

South Rexburg Arterial, Madison County, Idaho (August 2003). Ms. Wells served as Crew Chief for this Intensive Survey of a 1.5-mile (3.9-acre) linear alignment.

Class III, Main Stem, Owyhee River, Three Forks to Rome (July – August 2003). Ms. Wells served as a crew member on this Intensive Survey of a large (\approx 4500-acres) Wild and Scenic Rivers project along the Owyhee River in southeast Oregon. Generated all project and site maps using ArcGIS software.

Class III, Main Stem, Owyhee River, Oregon/Idaho to Three Forks. Generated all project and site maps using ArcGIS software.

Cultural Resource Inventory of the Newsome Creek Stream Stabilization Project (July 2003). Ms. Wells served as a crew member on this Intensive Survey within the Nez Perce National Forest in Idaho County, Idaho.

Atomic City Fire Station, Bingham County, Idaho (June 2003). Ms. Wells served as Crew Chief for this Class III Intensive Survey of 7.22 acres.

Elba Fuels Reduction, Cassia County, Idaho (May-June 2003). Ms. Wells served as Crew Chief for this Class III Intensive Survey of 600+ acres.

Coal Extraction Area survey near Sebree, Webster County, KY (January 2002). Ms. Wells served as Crew Chief for this Phase I Intensive Survey of 63.4 acres.

Phase I Intensive Survey of Lynch Road Extension Project, Vanderburgh and Warrick Counties, IN (December 2001). Ms. Wells served as a crew member on this 54.5-acre road project.

Phase I Intensive Survey of the Tile Factory Road Improvement Project, Mt. Vernon, Posey County, IN (November 2001). Ms. Wells served as Crew Leader on this 4-acre survey.

Phase I Intensive Survey of Bridges 43 and 44 on Pigeon Creek, Warrick County, IN (November 2001). Ms. Wells served as Crew Chief on this 23-acre bridge project.

Phase I Intensive Survey of Shakamak State Park Cabin Relocation Project in Sullivan and Green Counties, IN (April 2001). Ms. Wells served as a crew member on this 8.25-acre survey.

Phase I Intensive Survey of the Sullivan-Vigo County Water Lines Project, IN (April 2001). Ms. Wells served as Assistant to the Principal Investigator on this 152.6-acre survey.

Phase I Intensive Survey of Proposed Water Lines in Jefferson County, IN (March-April 2001). Ms. Wells served as a crew member on this 165-acre survey.

Phase I Intensive Survey of a Proposed Coal Extraction Area in Park County, IN (March 2001). Ms. Wells served as a crew member on this 20-acre survey.

Phase Ic Deep Testing on the Ohio River Floodplain, Lawrenceburg, IN (February-March 2001). Ms. Wells served as a crew member on this 100+ acre levee-improvement project.

Phase I Intensive Survey of the Lawrenceburg Levee Improvement Project, Dearborn County, IN (February 2001). Ms. Wells served as a crew member on this 100+ acre survey.

Phase I Intensive Survey of the Grounds at Indiana State Hospital, Evansville, Vanderburgh County, IN (February 2001). Ms. Wells served as a crew member on this 10-acre survey.

Phase Ic Deep Testing on the Wabash River Floodplain, Miami County, IN (January 2001). Ms. Wells served as a crew member on this 5-acre road-improvement project.

Phase Ic Deep Testing on the North Creek Floodplain, Hendricks County, IN (September-October 2000). Ms. Wells served as a crew member on this 30-acre airport interchange project.

Phase Ic Deep Testing on the Ohio River Floodplain, Dearborn County, Greendale, IN (June-July 2000). Ms. Wells served as a crew member on this 40-acre levee-improvement project.

Phase I Intensive Survey of the Hoosier Heartland Highway Project, Carroll County, IN (May-June 2000). Ms. Wells served as a crew member on this 200+ acre survey.

Phase Ia Survey and Ib subsurface testing for the IDOT 61 Bypass Project, Fort Madison, Iowa (March 2000, May 2000). Ms. Wells served as Crew Chief on this large highway project.

Phase I Intensive Survey of the DM&E Railroad Project, from Wall to Mitchell, South Dakota (April 2000). Ms. Wells served as a crew member on this 200+ mile railroad improvement project.

Class III Intensive Survey of the Powder Mountain 3D Seismic Project, Baggs, Wyoming (December 1999-January 2000). Ms. Wells served as a crew member on this large seismic project.

Class III Intensive Survey for the Oakley Minerals Exploration Project, Sawtooth National Forest, Burley District, Utah (October 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Hermit Mine and Road Reclamation Project, Sawtooth National Recreation Area, Idaho (October 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Wells Summit Fence Project, Sawtooth National Forest, Fairfield District, Idaho (September 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the South End Trail Improvements Project, Sawtooth National Forest, Twin Falls District, Idaho (September 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Montana Lode Road Easement Project, Sawtooth National Forest, Ketchum District, Idaho (September 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Upper Lake Creek Adit Closure Project, Sawtooth National Forest, Ketchum District, Idaho (September 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Eagle Mine and Road Reclamation Project, Sawtooth National Forest, Fairfield District, Idaho (May 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Glassford Heights Access Road Project, Sawtooth National Forest, Ketchum District, Idaho. Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for a fiber optics line from Bruneau, Idaho, to Owyhee, Nevada (May 1999). Ms. Wells served as a crew member on this 100-mile survey.

Class III Intensive Survey for a power line project, near Payette, Idaho and Ontario, Oregon (April 1999 – May 1999). Ms. Wells served as a crew member on this 10-mile survey.

Class III Intensive Survey for a Highway 95 realignment project in northern Idaho, near Coeur d'Alene (March 1999 – April 1999). Ms. Wells served as a crew member on this 30-mile survey.

Class III Intensive Survey for the Poison Flat Prescribed Burn Project, Sawtooth National Forest, Ketchum District, Idaho (September 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the OP House Timber Sale Project, Sawtooth National Forest, Fairfield District, Idaho (September 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Harriman Trail Reroute Project, Sawtooth National Recreation Area, Idaho (September 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Cabin Inventory for the Mason Mine Cabin Removal Project, Sawtooth National Forest, Fairfield District, Idaho (August 1999). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Newman Creek Powerline, Lot #6, Sawtooth National Forest, Ketchum District, Idaho (August 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Titus Creek Trail Relocation Project, Sawtooth National Recreation Area, Idaho (August 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Wood River Mountain Goat Viewing Project, Sawtooth National Recreation Area, Idaho (July 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Prairie Creek Trailhead Hitching Post Project, Sawtooth National Recreation Area, Idaho (July 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Nie Road Reclamation Project, Sawtooth National Recreation Area, Idaho (July 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Oregon Gulch Road Reclamation Project, Sawtooth National Forest, Ketchum District, Idaho (July 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the New Hope Mine Road Reclamation Project, Sawtooth National Forest, Ketchum District, Idaho (June 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the New Coal Pit Range Developments Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Rock Creek Allotment Range Improvements Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Spruce Creek Phone Line Project, Sawtooth National Recreation Area, Idaho (June 1998). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Connor Ridge Inventory Project, Sawtooth National Forest, Burley District, Idaho (September 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Champion Creek Administrative Site Inventory Project, Sawtooth National Recreation Area, Idaho (September 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the SNRA Organization Camp Inventory, Sawtooth National Recreation Area, Idaho (September 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Newman Creek Recreation Residences Project, Sawtooth National Forest, Ketchum District, Idaho (September 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Baker Creek Recreation Residences Project, Sawtooth National Recreation Area, Idaho (September 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Warm Springs Recreation Residences Project, Sawtooth National Recreation Area, Idaho (September 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Miller Stone Claims Project, Sawtooth National Forest, Twin Falls District, Idaho (August 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Jones Bar Cabin Removal Project, Sawtooth National Forest, Ketchum District, Idaho (August 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Fairfield Administration Site Road Right-of-Way, Sawtooth National Forest, Fairfield District, Idaho (August 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Willow Creek Fence Project, Sawtooth National Forest, Fairfield District, Idaho (August 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Group Activity Site Development Project, Sawtooth National Forest, Twin Falls District, Idaho (August 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Monument Peak Timber Sales Project, Sawtooth National Forest, Twin Falls District, Idaho (August 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Stanley Lake Creek Timber Sales Project, Sawtooth National Recreation Area, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Hyndman Creek Fence Project, Sawtooth National Forest, Ketchum District, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Johnson Creek Fence Project, Sawtooth National Forest, Burley District, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Pioneer Cabin Inventory Project, Sawtooth National Forest, Ketchum District, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Lower Baker Recreational Residences, Sawtooth National Recreation Area, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Easley Recreational Residences Project, Sawtooth National Recreation Area, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Boulderview Recreational Residences Project, Sawtooth National Recreation Area, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Spruce Creek Recreational Residences Project, Sawtooth National Recreation Area, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the SNRA Campground Inventory Project, Sawtooth National Recreation Area, Idaho (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the SNRA Recreational Residences Inventory Project, Sawtooth National Recreation Area (July 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Tunnel Hill Trough Projects, Sawtooth National Forest, Twin Falls District, Idaho (June 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Timber Butte Pond Maintenance Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the NE Creek Cattleguard Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the South Fork Fence Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Curtis Spring/Pole Camp Creek Ponds Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Moonshine Spring/Dry Fork Reservoir Water Developments Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Soldier Ski Area Expansion Project, Sawtooth National Forest, Fairfield District, Idaho (May 1997). Ms. Wells served as a Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Diamondfield Jack Mineral material Project, Sawtooth National Forest, Twin Falls District, Idaho (May 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Rocktile Developments/Clark's Basin Project, Sawtooth National Forest, Burley District, Utah (May 1997). Ms. Wells served as Crew Leader on this project and was responsible for compiling the report.

Class III Intensive Survey for the Fish Creek Quarry Project, Sawtooth National Forest, Burley District, Idaho (November 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Albion Timber Sales Project, Sawtooth National Forest, Burley District, Idaho (October 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Marsh Creek Timber Sale Project, Sawtooth National Forest, Burley District, Idaho (October 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the South Fork Salvage Sale Project, Sawtooth National Forest, Fairfield District, Idaho (October 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Cassia Spring Developments Project, Sawtooth National Forest, Twin Falls District, Idaho (September 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the West Salvage Sale Project, Sawtooth National Forest, Fairfield District, Idaho (September 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Big Wood Analysis Project, Sawtooth National Recreation Area, Idaho (September 1996). Ms. Wells served as a crew member on this project and assisted with compiling the report.

Class III Intensive Survey for the Chad Spring Trough/Soil Addition Project, Sawtooth National Forest, Twin Falls District, Idaho (September 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Snowplay Salvage Sale Project, Sawtooth National Forest, Burley District, Idaho (August 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Sublett Timber Sales Project, Sawtooth National Forest, Burley District, Idaho (August 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Pomerelle Ski Area Expansion Project, Sawtooth National Forest, Burley District, Idaho (August 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey and Structure Inventory for the Rock Creek Guard Station Project, Twin Falls District, Idaho (July 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Diamondfield Jack Parking Lot Expansion Project, Sawtooth National Forest, Twin Falls District, Idaho (July 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Trout/Goose Fenceline II Project, Sawtooth National Forest, Twin Falls District, Idaho (July 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Coal Pit C & H Project, Sawtooth National Forest, Twin Falls District, Idaho (July 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Ridgeline Pond and Trough Developments Project, Sawtooth National Forest, Twin Falls district, Idaho (June 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Bostetter Timber Cut Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Carlson Canyon Cattleguard Project, Sawtooth National Forest, Twin Falls District, Idaho (May 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Trout Creek Enclosure Project, Sawtooth National Forest, Twin Falls District, Idaho (May 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Thoroughbred Creek Enclosure Project, Sawtooth National Forest, Twin Falls District, Idaho (May 1996). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Deer Creek Mine Reclamation Project, Sawtooth National Forest, Ketchum District, Idaho (November 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Stanley Creek Culvert Modification, Sawtooth National Recreation Area, Idaho (November 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Boulder Creek Seasonal Closure Project, Sawtooth National Recreation Area, Idaho (November 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Frenchman Creek Ford Restoration Project, Sawtooth National Recreation Area, Idaho (October 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Elk Winter Feeding Sites Project, Sawtooth National Recreation Area, Idaho (October 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Elk Meadows Trail Relocation Project, Sawtooth National Recreation Area, Idaho (October 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Oakley Mine Survey Project, Sawtooth National Forest, Burley District, Idaho (October 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Shoshone Creek Fenceline Project, Sawtooth National Forest, Twin Falls District, Idaho (October 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Soldier Mountain Ski Area Developments Project, Sawtooth National Forest, Fairfield District, Idaho (September 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Jay Spring Exclosure Project, Sawtooth National Forest, Twin Falls District, Idaho (September 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Mahogany Butte Fenceline Project, Sawtooth National Forest, Twin Falls District, Idaho (September 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Rattlesnake Creek Fenceline Project, Sawtooth National Forest, Twin Falls District, Idaho (September 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Trapper Peak Timber Sale Project, Sawtooth National Forest, Twin Falls District, Idaho (August 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Trout/Goose Fenceline Project, Sawtooth National Forest, Twin Falls District, Idaho (August 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Black Pine Electronics Site Project, Sawtooth National Forest, Burley District, Idaho (August 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Goose Creek Allotment II Project, Sawtooth National Forest, Twin Falls District, Idaho (July 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Goose Creek Allotment I Project, Sawtooth National Forest, Twin Falls District, Idaho (June 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

Class III Intensive Survey for the Galena Overlook Expansion Project, Sawtooth National Recreation Area, Idaho (May 1995). Ms. Wells served as a crew member on this project and was responsible for compiling the report.

SPECIAL TRAINING/SKILLS

Ms. Wells has formal training and extensive experience with in ESRI ArcView and ArcGIS. She is also proficient with Microsoft Excel, Adobe Illustrator, Adobe Photoshop, Surfer and Microsoft Access. She has experience using Trimble GeoExplorer and GeoXT handheld GPS units, and has also developed an archaeological data dictionary for use with these units.

Ms. Wells has training and experience in faunal analysis as well as human osteological analysis.

Ms. Wells is an accomplished illustrator, having produced illustrations of pottery and lithic tools from various sites in Idaho, Nevada, Utah, Wyoming, Indiana, Oregon, Kentucky and South Africa. She has served in a professional capacity as Staff Illustrator for nearly all of her employers.

Ms. Wells has served as a technical writer/editor for nearly all of her employers.

PRESENTATIONS AND INTERPRETIVE WORK

Ms. Wells has provided training to external governmental agencies in the identification, reporting, and preservation of cultural properties.

Ms. Wells frequently arranges and presents periodic lessons to the Bug-o-nay-ge-shig Middle School about historic preservation and archaeology.

Ms. Wells compiled a Paraprofessional Training Course and Manual for the Leech Lake Heritage Sites Crew, and conducts ongoing training sessions throughout the year.

Ms. Wells taught a brief class on the effects of fire on cultural resources during an advanced course for wildland firefighters conducted at Itasca State Park, Minnesota (Summer 2004)

Ms. Wells performed flint knapping demonstrations and gave short talks to several classes—grade school through high school—at a private school in Jerome, Idaho (November 1999).

Ms. Wells gave a presentation to the Twin Falls Chapter of the Idaho Archaeological Society: "Old World Archaeology and Human Evolution: A Glimpse into Early Human Cognition through an Analysis of Symbolic Behavior as Preserved in the Archaeological Record" (November 1999).

Ms. Wells taught a class on North American Archaeology and Cultural Resource Preservation to a group of fifth-grade gifted and talented students in conjunction with the Sawtooth National Forest Environmental Education Program (October 1999).

Ms. Wells assisted in teaching an archaeological field school to local middle school students at the Stewart Flat Site on Fremont Lake, Pinedale, Wyoming (July 1999).

Ms. Wells gave numerous short presentations to various audiences, such as school groups and the Boy Scouts of America, about Idaho Archaeology and Cultural Resource Preservation in conjunction with the Sawtooth National Forest Environmental Education Program (May 1996 – November 1999).

CONFERENCES ATTENDED

Feb. 2007 Council for Minnesota Archaeology Conference, Mankato, Minnesota

- April 2005 Palaeoanthropology Society Conference, Milwaukee, Wisconsin
- Feb. 2005 Cooperative Stewardship Workshop, Mille Lacs, Minnesota
- Sept. 2001 Institute for the Study of Man in Africa (ISMA), Johannesburg, South Africa
- April 1998 American Association of Physical Anthropologists, Salt Lake City, Utah
- Oct. 1992 Great Basin Anthropological Conference, Boise, Idaho
